MANCHESTER, N. H. Feb 3 1908

H. V. A. Parsell

My Dear Sir & Bro—

I was right glad to hear from you again, and will write a few lines now to endorse with the requests. Yes. I saw the Sci. American article on "Chess," about 2 hours before your letter came yesterday (Calcbenus). I cannot place chess but I have spent much time with the Chess Kt. Your problem over the board and have many solutions and have published many in the earlier Nos. of N. & Q.

I send you today K.C.
Jan. 1908. and Let. No 2. just
published this day.
There is no fee here on
the Checks so I return
the 10 cts.
I do not know who
to refer you to as to the
Kabbalah. One of the
best. I own met [illegible]
when he was hungry [illegible]
J. Ralston Skinner. of "Source
of Measure" fame. and he
published quite a
literature on it. and I
suppose you may have
some or all. I have
all. as we were in corres-
pondence for 15 years
or more. and he men-
tions me in his works:
I want to pass several
evenings with you. and
then they will seem short.

I have many matters to
talk over with you
in Masonry and the
R.C. also. Nothing has
come to a head yet
and will not till I
can see you and a
few others—
I have read Dr Buck
little pamphlets and also
his articles in "The Word"
etc.
I have not 4th Dimension
Novels. But I will
try again through my
London friend and see
if he can get a couple
of set. I have other
calls for them.
I was not in January 1908.
Shall arrange to go there
in April or May.
I hope we can have

same time together, and we will call on some "bright-Masons" I assure you. and it will be "a feast of reason and flow of soul"
I regret that the rainy day kept me away from the call I arranged with you.
I am sorry for your feminine troubles.
I feared you delayed letters, for some good reason.
Will write more later on
Let me know when you go to Washington, D.C.
Yours fraternally
S.C. Gould
